

PolyWorks/Inspector Probing™ Package Introductory Offer

InnovMetric Software introduces PolyWorks/Inspector Probing™, a new package specifically dedicated to interactive probing metrology applications.

This new PolyWorks/Inspector Probing software, which is a subset of the full PolyWorks/Inspector™ point cloud & probing package, will be licensed yearly at a fixed price of:

- 3200 euros/year/license (Europe)
- 4000 US\$/year/license (Americas and ROW)

The yearly license fee includes full first-line support to end users as well as all software updates and new versions.

At the end of the 'one-year' license period, customers simply need to renew their annual license.

An easy upgrade path to the complete PolyWorks point cloud engineering solution is available.

Initial 'one-year' license free of charge on new systems

Users that have acquired a new portable probing system will qualify for the initial "one-year" license activation **free of charge****.

This introductory promotion is valid for activations taking place within 90 days from the date of the purchase of the portable probing system.

** A nominal fee of 100 euros/license (Europe) or US\$100/license (Americas and ROW) will be charged to cover shipping costs and dongle registration.

Contact your PolyWorks representative today at info@innovmetric.com to order your PolyWorks/Inspector Probing license.

New PolyWorks Distributors

InnovMetric Software is constantly expanding its distribution network. We are proud to welcome the following new distributors to our team:

- Accurex**
PolyWorks bundled with: AICON DPAInspect
Contact: Mr. Bill Mongon

New PolyWorks V10 Brochures

Four new brochures of PolyWorks V10 are now available:

- PolyWorks Corporate
- PolyWorks V10 New Features
- PolyWorks/Inspector Probing Package
- PolyWorks Airfoil Gauge Module

These brochures can be downloaded in PDF formats from the [Brochures](#) section of InnovMetric's website.

InnovMetric Street Name Change

InnovMetric would like to advise you that its street name has been changed from Jean-Talou Nord to Cyrille-Duquet. Effective January 2007, our complete address is now:

InnovMetric Software Inc.
 2014 Cyrille-Duquet, Suite 310
 Quebec City, QC, Canada, G1N 4N6
 Phone : 418 688 2061
 Fax : 418 688 3001

Please update your databases.

InnovMetric Officially Launches PolyWorks V10

The official release of PolyWorks V10 is scheduled in the week starting on February 19th 2007. On the day of the official launch, the PolyWorks V10 software will be available to supported customers for download from InnovMetric's Technical Support Zone. Check out the "Breaking News" section of our website for more details on the date of the release.

Here's what the groundbreaking Version 10 has to offer you:

- A completely rebuilt user interface based on the new **Xtreme interface platform**, including customizable menus and toolbars, configurable visual layouts, and a beginner visual layout for quick learning
- An **optimized part inspection workflow** that requires the least number of mouse clicks in the industry
- **64-bit software** for nearly unlimited memory usage on Windows x64 operating systems
- **Dramatically enhanced probing capabilities**
- A new cluster solution for meshing large point clouds over a computer network
- A powerful search tool for locating workspaces and projects
- A brand new **hole-filling technology** that surpasses all existing products
- An improved **NURBS surface fitting algorithm**
- The first implementation of Multi Metric's **Smart GD&T™** in the world of coordinate metrology
- A new optional **Airfoil Gauge module** with best-in-class performance
- And a lot more!

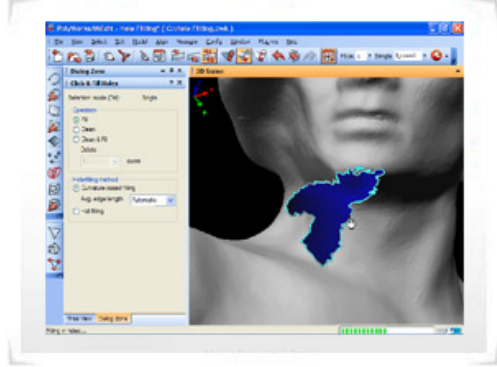

NB: All PolyWorks users with a valid Support/Maintenance contract can obtain the new PolyWorks V10 release **at no charge**. If you are a PolyWorks user, but do not have a valid Support/Maintenance contract, you can renew it by contacting your local PolyWorks distributor or InnovMetric's Customer Service Agent at bettina@innovmetric.com who will forward your request to the right person. If you are not a PolyWorks user, and would like to obtain a free 15-day PolyWorks V10 evaluation license, please contact InnovMetric at info@innovmetric.com and we will forward your request to a PolyWorks distributor.

InnovMetric Presents an Updated Version of its Website

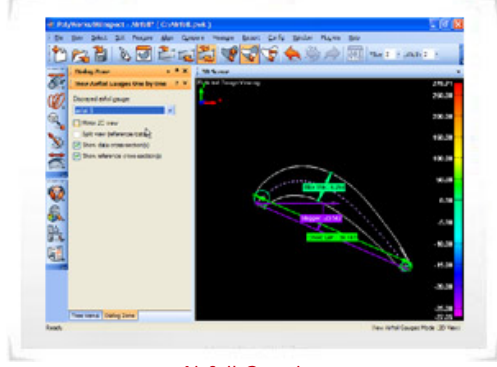

To discover all the latest features of PolyWorks V10, we invite you to visit our revamped website at www.innovmetric.com. The website now presents the new features of PolyWorks Version 10, including the new Airfoil Gauge Module and PolyWorks/Inspector Probing Package.

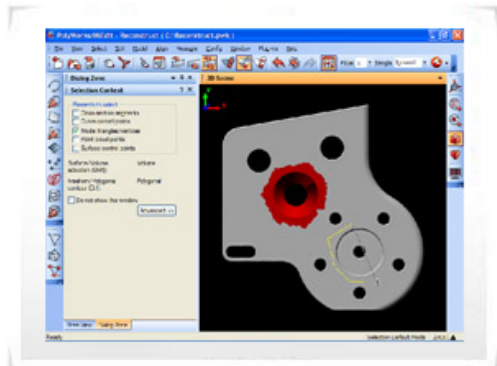

It also contains short videos of new features such as re-engineered hole-filling, polygonal reconstruction, radial cross-sections, and airfoil gauging.

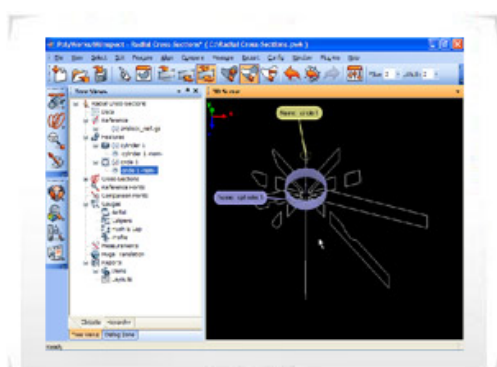

Re-engineered hole-filling algorithm

Airfoil Gauging

Polygonal reconstruction

Radial cross-sections

PolyWorks V10 Wallpapers

Two new PolyWorks V10 wallpapers are available. You can download them here or from the "Marketing" section of InnovMetric's Technical Support Zone.
